Kerri,

I wanted to let you know that I haven't forgotten our discussion. I'm hoping that we can arrange a time to talk next week. I am copying Meghan Cassidy in Region 1 as a heads up. It is my understanding that the goal of the conversation is to have an exploratory discussion of the issues/concerns you have over PFAS environmental contamination and ways that we might work together to address those concerns. If next week is bad because of Thanksgiving Holiday, we could try the following week. Just let me know.

Thanks.

Tim

Tim,

Thanks for the conversation this morning.

As discussed, I've attached the PowerPoint presentation on our unique PFAS site, as well as a separate PDF document with the newest data from the water district. Some of the maps in the presentation will need to be enlarged to read the details, as will the separate PDF graph. Notes within the PowerPoint will give some insight, but I'll look forward to helping explain our approach and examining the data during our next discussion.

Please call if there are any problems opening the documents or if questions come up.

Looking forward to our next call.

Best,

Kerri
